# Laravel Redirects and Message

After Submission: Data will be store in the session.

After refresh: session will be reset

Blade-file:

```
@if(session('name'))
<h1 style = "color:green"> {{session('name')}} {{session('message')}}</h1>
@endif
<form action="formdata" method = 'post'>...........
```

Controller:

```php
<?php

namespace App\Http\Controllers;

use Illuminate\Http\Request;

class Form extends Controller
{
  function formdata(Request $request) {

    $request->validate(['name' => 'required | min:5','email' => 'required|email:rfc,dns','message' =>
'required | max:200 | min:100 ']);
    $data  = $request->input('name');
    $request->session()->flash('name' , $data);
    session()->flash('message', 'Data saved successfully!');

    return redirect('Huzaifa-ka-form');

  }

}
```
